SOMETHING ABOUT US

MAKE OUT Export import is a 100% Export Oriented Sweater Factory leading Buying House based in Bangladesh, dedicated to connecting international buyers with reliable manufacturers and suppliers. With a strong commitment to quality, transparency, and timely delivery, we act as a trusted sourcing partner for global apparel brands and retailers. Our expertise lies in product development, sourcing, merchandising, quality assurance, and shipment coordination — ensuring

Since our inception, we have built long-term partnerships with reputed factories and suppliers, offering a wide range of ready-made garments, home textiles, and fashion accessories. Our highly skilled team of professionals ensures every order meets international standards for quality, compliance, and sustainability.

PRODUCT RANGE

- * Sweater
- * Woven
- * Knit
- * School wear
- * Work wear
- * Babies & Kids

KEY STEP WHY CHOOSE US

- * Dedicated professional team with years of sourcing experience
- * Strong network of compliant and certified factories
- * Competitive pricing and on-time delivery
- * Strict quality assurance and ethical practices
- * Personalized service and transparent communication

SOURCING & DEVELOPMENT

The buying house identifies suitable factories based on the buyer's requirements — product type, quality, price, and capacity. It helps develop product samples, negotiate pricing, and ensure materials and designs match international standards.

PRODUCTION & QUALITY CONTROL

Once orders are confirmed, the buying house monitors the entire production process. This includes raw material checks, in-line and final inspections, and compliance verification — ensuring every product meets the buyer's specifications.

SHIPMENT & DELIVERY

After quality approval, the buying house coordinates all logistics and documentation for smooth shipment. It ensures on-time delivery, handles export formalities, and provides post-shipment support to maintain buyer satisfaction.

WHY CHOOSE BANGLADESH

Bangladesh is a South Asian country located on the Bay of Bengal, bordered by India and Myanmar. It is known for its lush greenery, fertile lands, and the world's largest river delta formed by the Ganges, Brahmaputra, and Meghna rivers. The country has a tropical monsoon climate and is rich in natural beauty, featuring the Sundarbans mangrove forest — home of the Royal Bengal Tiger.

Economically, Bangladesh has shown remarkable growth over the past decades, transitioning from a low-income to a lower-middle-income nation. The economy is driven by agriculture, remittances, and especially the ready-made garments (RMG) industry, which accounts for more than 80% of export earnings. The country is also expanding in pharmaceuticals, leather goods, and information technology sectors.

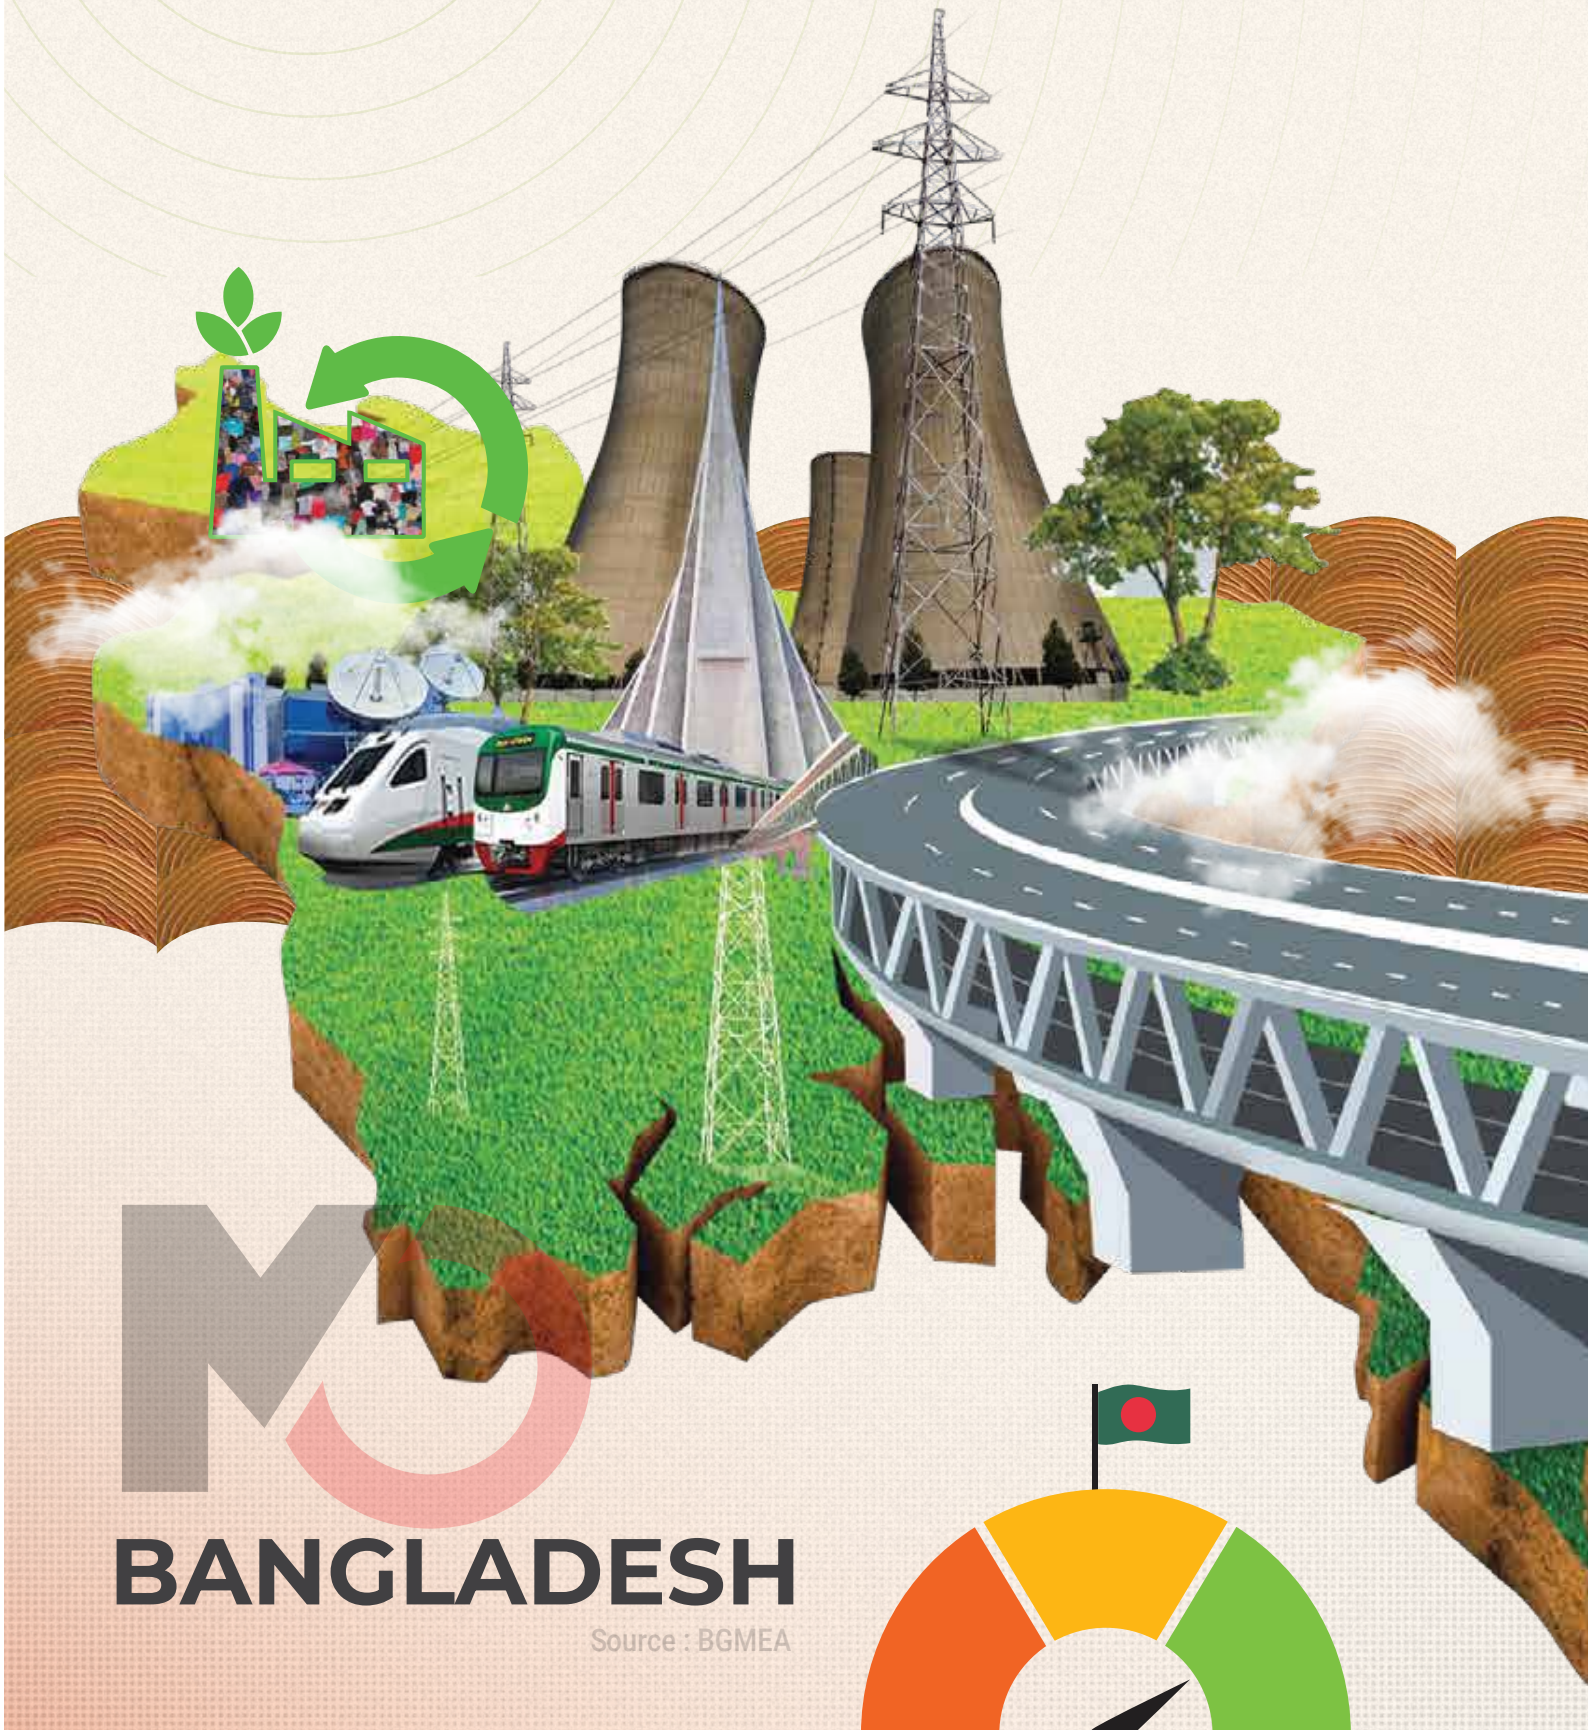

FASTEST GROWING GARMENTS INDUSTRY

Bangladesh's garment industry is one of the largest in the world, providing employment to millions, particularly women, and playing a crucial role in social and economic development. Despite challenges like overpopulation and climate vulnerability, Bangladesh continues to make progress in education, health, and infrastructure, earning global recognition as one of the fastest-growing economies in Asia.
